Tips to help with Tool Collection:

1. Start early.
2. Put your tool list in your church newsletter.
3. Ask your adults and youth to recruit tools. Some adults will want to take their own tools.
4. Ask tool donors to label donated tools with their last names for identification purposes.
5. Keep a personal list of who loaned your tools.
6. Remember - vehicle tools remain in the vehicle every day.
7. Keep in mind, that OMP can supplement tools if needed. Communicate by May 1.
